**Barley Twist Strap:** Using the same size circular needle as for the bag, cast on 100 stitches with 2- strands of yarn. If using worsted weight yarn, knit 3 rows. If using DK weight yarn, knit 4 rows. On next row, increase by knitting into front, back and front of every stitch. At end of this row, you will have 300 stitches on the needle. This increase row creates the barley twist in the strap. Bind off.

**Felting:** Place bag in a zippered pillowcase, toss a Shout Colorcatcher into the pillowcase. Place strap in a separate zippered pillowcase. Place both pillowcases in washing machine with heavy items. Add ¼ c. vinegar to each wash cycle, along with some soap. Wash on hot wash cold rinse cycle. Check after each wash to determine size and change Colorcatcher sheet. May take 3-4 trips through wash to achieve desired felting. The strap may only need two trips through wash

**Finishing:** When the bag comes out of the washer the final time, do whatever stretching and pulling needed to achieved the desired shape. The bag flap may need to be pulled and stretched into desired shape. Dry bag flat, with flap pinned into place with a straight pin. (When drying a bag flat, we use long quilting pins and pin it to a piece of Styrofoam to help maintain the desired shape as it dries.) Wrap strap around a dowel or stick while wet to help set twist as it dries.

Sizes will vary depending upon yarn, number of cycles through washing machine and water temperature. Our bag models are washed in hot water which is 130 degrees.

**Attaching Strap:** Pin strap-ends on the outside of each side of bag – about 1 – 1 ¼ inches from top of bag. There will probably be a nature twist in the strap that helps you position strap. Using a matching thread (we use embroidery thread), sew strap to bag.

**Buttons:** A button can be added to the outside of the flap and a magnetic snap can be used on the inside flap, if desired. Sew magnetic snap parts to a piece of ribbon and then sew the ribbon to the bag flap and bag body. We often use buttons from [www.glasspens.com](http://www.glasspens.com) and [www.sealeatherbuttons.com](http://www.sealeatherbuttons.com).
